Your recovery phrase

These mnemonic words are for recovering your wallet; write them down correctly on paper and keep them in a safe place.

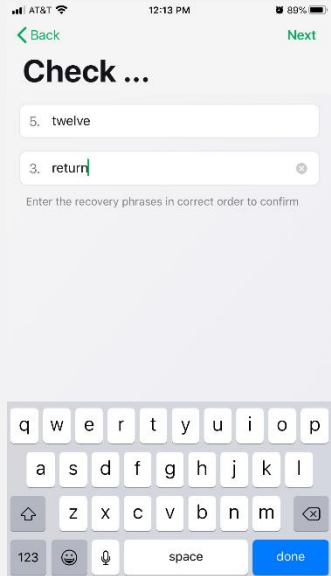

- | | |
|-----------|------------|
| 1. hint | 7. glass |
| 2. angle | 8. damp |
| 3. return | 9. ribbon |
| 4. actual | 10. pupil |
| 5. twelve | 11. follow |
| 6. robot | 12. photo |

Important:

Don't disclose mnemonic words to anyone. Keep them secret. Once the mnemonic is lost, assets cannot be recovered. Please do not save by screenshots or network transmission. Don't uninstall the app, if you have issues, please contact us for help.

Completed backup, verify it now (Select).

Copy Mnemonic

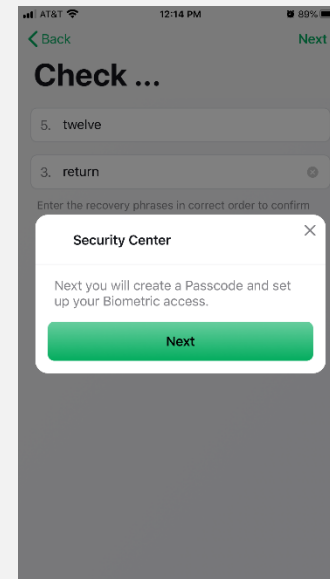

Check...

- 5. (type in word #5 from previous screen)
- 3. (type in word #3 from previous screen)

****You may be asked to type in any of the 12 (or 24) words. In this case, words 5 and 3 are requested.****

Enter the recovery phrases in correct order to confirm

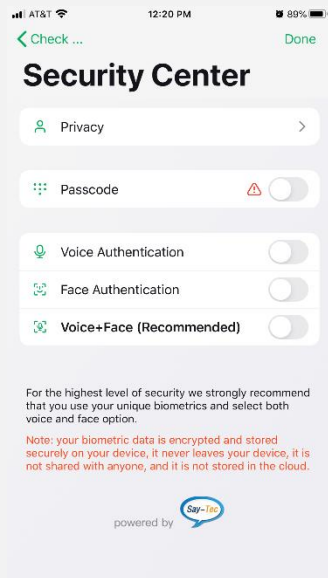

Press Done

A Security Center screen will pop up that says:

Next you will create a Passcode and set up your Biometric access.

Passcode

Voice Authentication

Face Authentication

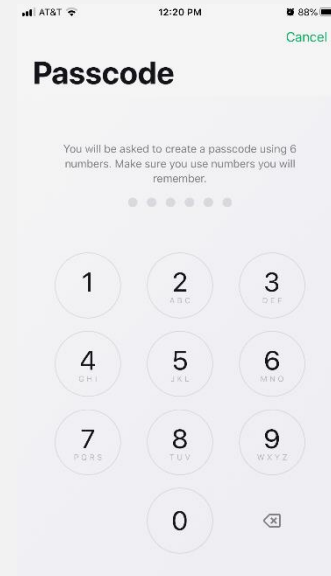

Voice + Face (Recommended)

For the highest level of security we strongly recommend that you use your unique biometrics and select both voice and face option.

Note: your biometric data is encrypted and stored securely on your device, it never leaves your device, it is not shared with anyone, and it is not stored in the cloud.

Powered by Say-Tec

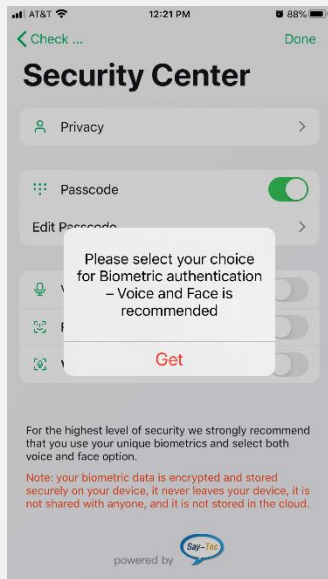

Select Passcode

Passcode

You will be asked to create a passcode using 6 numbers. Make sure you use numbers you will remember.

After entering your 6 numbers, you will be asked to enter them again to confirm.

After confirming your 6-digit Passcode, you will be returned to the Security Center screen and a pop-up screen will appear:

Please select your choice for Biometric authentication – Voice and Face is recommended.

Get

You are now back at the Security Center screen.

After setting up your passcode, you have the option to select Voice Authentication, Face Authentication, or Voice + Face (which is recommended).

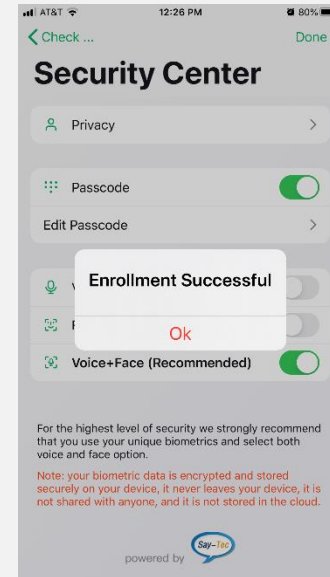

After selecting Voice + Face, you will be asked to allow Krptic Wallet to access your camera and microphone. Select OK.

Now you are at the screen where you will see your face in a square.

Press **start** (upper right corner of screen) then say your “unlock phrase” two or three times. (Your unlock phrase should be two to four words).

Your face and voice information will be captured, and you will be taken back to the Security Center.

At the top right of the Security Center screen, press Done.

To test your setup, exit out of Krptic then go back in. If you chose Face + Voice, you will look into your phone as you did when setting up your biometrics and say your chosen unlock phrase.

You are now able to access the features of Krptic Wallet.
